

Governance & Sponsorship

2022-09

What is MapLibre?

- Map visualization libraries for web and mobile devices
- Started as a Mapbox code fork after the license change
- Reference implementation for vector tile rendering and styles (GL JSON style)
- BSD Open Source licensed, open governance
- Built on agreement of founders: [story](#) & [memorandum](#)

Critical for you?

- MapLibre GL JS powers your web projects now
- Your customers are using SDKs from the community project

The project must be maintained, or else it may die

Please consider donating engineering time and/or sponsor

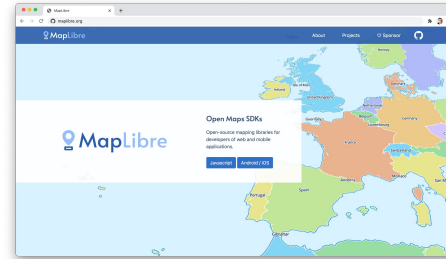

Share maintenance costs with others

Projects

MapLibre GL Native

C++ API for iOS, Android, Qt, Node.js

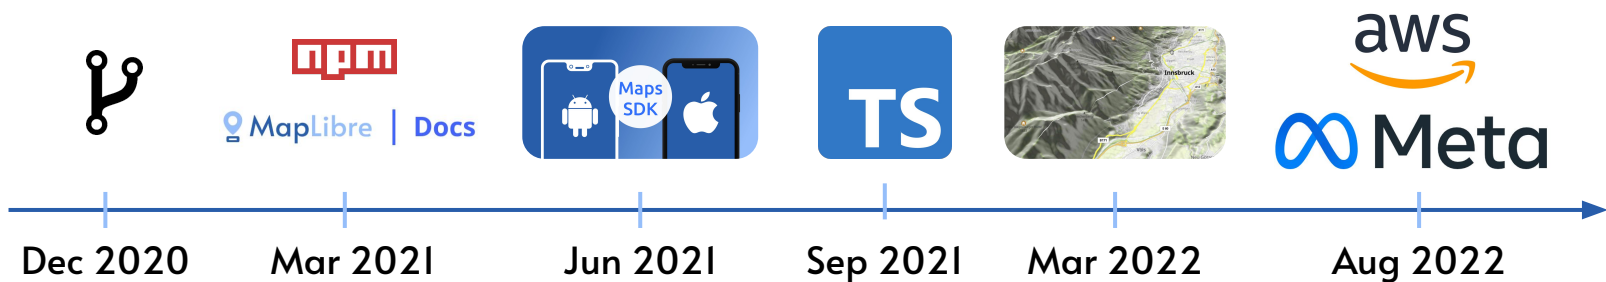

MapLibre GL JS

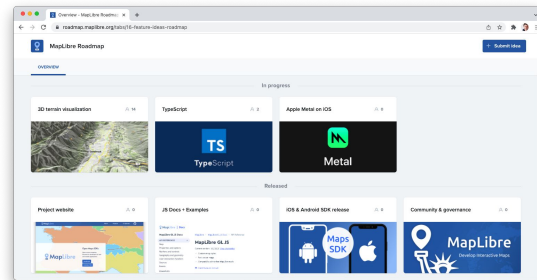

TypeScript API for Web Browsers
